(54) Title: PROGRAM LIST GENERATING APPARATUS

WO 2005/041572 A1

(57) Abstract: A program recording apparatus for receiving and recording a program. The program recording apparatus includes: a receiving unit operable to receive a first program and a second program; a recording unit operable to record the received first and second programs; an acquiring unit operable to acquire a first title of the first program and a second title of the second program; an extracting unit operable to extract a first difference from the first title, and extracts a second difference from the second title, the first and second differences being respectively portions of the first and second titles and being different from each other; and a program list generating unit operable to generate a program list based on the first and second differences extracted by the extracting unit.
